"I was referred to Sterling Properties Group (SPG) through my consultants—Ideal Practices, LLC. After completing a thorough demographic study of the area, we settled on two geographic areas to look for opportunities. SPG helped us narrow down our search by providing us with venues that met both my short and long term needs. They made the process easy and we were able to find an office location that works! I feel well positioned to accomplish my vision and help serve the needs of the Denver community. I am pleased with SPG and would recommend them to others."
